

## Change Notification

January 24, 2022

Dear Valued LabChem Customer,

LabChem is continually reviewing packaging across the product portfolio and qualifying components that best meet the needs of our customers and staff.

This notification is to advise that, effective immediately, LabChem will begin discontinuing the use of cellulose bands (as known as celloseals, celons and shrink bands) for packaging that has historically utilized them (poly bottles, glass bottles and jars).

The change will have no effect on product quality, fit or function and does not inhibit the product from fuming or leaking.

If you have any questions or concerns, please contact us at 412-826-5230.

Thank you for your continuing business.

Regards,

Patrick Maher, Jr.  
Vice President – Operations  
LabChem Inc
